Student

SUMMARY

I am Shaista Naaz, a third-year B.Tech student at Malla Reddy Engineering College with a strong interest in coding and data-driven problem solving. I am passionate about continuous learning and eager to explore innovative technologies that create real-world impact. As a student leader, I actively take initiative, collaborate effectively, and bring a mindset of growth and adaptability to every opportunity.

PROJECTS WORKED ON:

Arrhythmia disease diagnosis

- Collaborated with a team to develop an Arrhythmia Disease Diagnosis system using ECG data and machine learning.
- Focused on data preprocessing, model building, and testing to ensure accurate and reliable predictions.
- Presented project outcomes, highlighting its potential to support real-world healthcare applications.

SkyScan-AI

- Collaborated on developing SkyScan AI, a U-Net–based segmentation system to detect and track Tropical Cloud Clusters (TCCs) using INSAT-3D satellite data.
- Focused on data preprocessing, model training, and evaluation to monitor cloud cluster size, intensity, and location for cyclone forecasting.
- Presented the project as an AI-driven solution with potential applications in weather prediction and disaster preparedness.

Multilingual PDF Heading Extraction and Translation System

- Multilingual PDF Heading Extraction and Translation System
- AI-Powered Document Heading Extraction and Translation
- Intelligent Multilingual Document Understanding
- Automated PDF Heading Structuring and Translation

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Malla Reddy Engineering College For Women

2023 - Present

- CGPA:8.56

INTERMEDIATE

Telangana Minority Residential Junior College

2021 - 2023

- Percentage:91.4%

SKILLS
